

Directions (1-5): Study the given information carefully and answer the given questions.

Eight persons A, B, C, D, E, F, G, H live on a separate floor each of an 8-floor building but not necessarily in the same order. The ground floor is numbered 1, the first floor is numbered 2 and so on until the topmost floor is numbered eight.

Only two persons live below the floor on which G lives. Only one person lives between G and A. H lives on an odd-numbered floor but not on floor no. 7. Only two persons live between H and B. B does not live on the topmost floor. A does not live on the lowermost floor. D lives immediately below C. Neither C nor E live on floor no 6. F lives immediately above A.

1. How many persons live between the floors on which A and D live?

(a) Three (b) More than three (c) None (d) Two (e) One

2. Who lives on the floor immediately below G?

(a) F (b) E (c) D (d) B (e) None of these

3. On which of the following floor numbers does D live?

(a) Four (b) One (c) Eight (d) Five (e) Seven

4. Which of the following is true with respect to F as per the given arrangement?

(a) Only three persons live between F and B above F. (b) Only three persons live above F.

(c) Only one person sits between F and D. floor. (d) F sits on even numbered floor. (e) None of these.

5. Who lives on the floor numbered 5?

(a) F (b) B (c) D (d) A (e) None of these

Directions (6-10):

Eight MNC workers – A, B, C, D, E, F, G and H live on separate floors of an eight storied building in Mumbai. Each floors are numbered, starting with Ground Floor number 1, and so on such that the topmost floor is numbered 8. B lives on floor number 6. E lives on an even numbered floor. E lives immediately below the floor where F lives. A lives below the floor H lives in. Only one person live between the floors A and H lives. C lives on the lowermost floor. A lives immediately below the floor B lives in. D does not live on the topmost floor.

6. How many persons live between the floors of E and B?

- (a) Four (b) Three (c) Two (d) One (e) None

7. On which floor number does D live?

- (a) 2 (b) 7 (c) 3 (d) 4 (e) 5

8. Who lives on the floor number 5?

- (a) C (b) D (c) A (d) F (e) E

9. Which of the following statement is true with respect to B in the above information?

- (a) B lives immediately above A's floor. (b) B lives in an odd numbered floor.
(c) Only three persons live between B and C. (d) Only three persons live below B.
(e) B lives immediately below of H's floor.

10 Who lives immediately below of H's floor?

- (a) A (b) B (c) C (d) G (e) D

Directions (11-15): Study the following information carefully and answer the question given below

Eight people are sitting in two parallel rows containing four people each, in such a way that there is an equal distance between adjacent persons. In row 1-A, B, C and D are seated and all of them are facing south. In row 2- P, Q, R and S are seated and all of them are facing north. Therefore in the given seating arrangement each member seated in a row faces another member of the other row. R sits second to the left of person who faces A. S is an immediate neighbor of R. Only one person sits between A and D. One of the immediate neighbours of C faces Q. B does not sit at any of the extreme end of the line.

11. Who amongst the following sits second to the right of person who faces P?

- (a) A (b) B (c) C (d) D (e) Can't be determined

12. Four of the following five are alike in certain way and thus formed a group. Which is the one that does not belong to that group?

- (a) C (b) R (c) Q (d) P (e) D

13. Which of the following is true regarding C?

- (a) C sits second to the right of D (b) A sits to the immediate right of C (c) S faces C
(d) D is an immediate neighbor of C (e) The person who faces C is an immediate neighbor of R

14. Who amongst the following faces R?

- (a) A (b) B (c) C (d) D (e) Can't be determined

15. Who amongst the following faces B?

- (a) P (b) Q (c) R (d) S (e) Can't be determined

Directions (16-20): Study the given information carefully and answer the given questions.

Ten people are sitting in two parallel rows containing five people each, in such a way that there is an equal distance between adjacent persons. In Row-1- J, K, L, M and N are seated (not necessarily in the same order) and all of them are facing south. In Row-2-V, W, X, Y and Z are seated (not necessarily in the same order) and all of them are facing north. Therefore, in the given seated arrangement each member seated in a row faces another member of the other row. Z sits third to the right of W. V sits second to the left of Z. The persons facing V sits to the immediate right of K. Only one person sits between K and M. J is not an immediate neighbour of K. Only two people sit between J and L. Neither K nor J faces Y.

16. Who amongst the following facing N?

- (a) Y (b) Z (c) V (d) X (e) W

17. Which of the following statements is true regarding M?

- (a) M faces one of the immediate neighbours of X.
(b) K is one of the immediate neighbours of M.
(c) None of the given statements is true.
(d) L sits to the immediate right of M.
(e) Only one person sits between M and N.

18. Who amongst the following is facing X?

- (a) K (b) L (c) M (d) J (e) N

19. What is the position of Z with respect to Y?

- (a) Third to the right (b) Second to the right (c) Immediate left
(d) Immediate right (e) Second to the left

20. Four of the given five are alike in a certain way based on the given arrangement and hence form a group. Which of them does not belong to that group?

- (a) M (b) J (c) N (d) W (e) Y
