

Directions (1-5): Study the following information carefully and answer the following questions.

Eight persons - A, B, C, D, E, F, G and H are living in an eight storey building, but not necessarily in the same order. The lowermost floor is numbered as one and the topmost floor is numbered as eight.

D lives on one of the floors below third floor. Only two persons live between D and F. The number of persons living above F is the same as the number of persons living below B. Only two persons live between B and E, who does not live adjacent to D. C lives two floors above H, who does not live on the lowermost floor. G lives above A.

1) Which of the following combination is true with respect to the final arrangement?

a) First-F b) Third-D c) Eighth-C d) Seventh-H e) Sixth-G

2) Four of the following five are alike in a certain way and hence form a group. Who among the following one does not belong to that group?

a) CH b) EF c) HB d) FG e) DC

3) How many persons are living between E and D?

a) Four b) Three c) Two d) One e) Five

4) What is the position of B from the top?

a) First b) Second c) Third d) Fourth e) Fifth

5) Who among the following person lives immediately below H?

a) C

b) E

c) The one who lives immediately above B

d) The one who lives on the third floor

e) A

Directions (6-10): Study the following information carefully and answer the following questions.

Seven persons - L, M, N, O, P, Q and R live in a seven-storey building such that the lowermost floor is numbered as one and the topmost floor is numbered as seven, but not necessarily in the same order.

O lives three floors above P. At least one person lives below P. Q lives immediately above O. Only two persons live between Q and R. The number of persons living between O and R is the same as the number of persons living between P and L. L lives on one of the floors below M but lives above N.

6) How many persons live above L?

a) Three b) Two c) One d) Four e) None

7) Who among the following persons are living below R?

I. P

II. N

III. O

IV. L

a) Only I and IV

b) Only I and III

c) Only III and IV

d) Only II and III

e) Only I and II

8) As many persons live above O as below ____?

a) L b) Q c) R d) P e) N

9) On which of the following floor does M live?

a) Seventh b) Sixth c) Fifth d) Fourth e) Third

10) Who among the following person lives on the second floor?

a) P b) R c) N d) M e) Q

Directions (11-15): Study the following information carefully and answer the following questions.

Nine persons - D, E, F, G, H, I, J, K and L live on a nine-storey building such that the lowermost floor is numbered as one and the topmost floor is numbered as nine, but not necessarily in the same order.

K lives four floors below D. Only one floor is between H and D. F lives immediately above H. Only three floors are between F and L. I lives two floors above J. Both J and K are living on the adjacent floors. G lives on one of the floors above E, who does not live on the adjacent floor of D.

11) Who among the following person lives two floors above K?

- a) The one who lives on the sixth floor
- b) The one who lives immediately below L
- c) F
- d) H
- e) G

12) Who among the following person lives on the fifth floor?

- a) F b) H c) G d) D e) L

13) How many persons live between G and I?

- a) Five b) Two c) One d) Four e) Three

14) Which of the following statement(s) is/are true with respect to the final arrangement?

- a) H lives below J
- b) No one lives between F and G
- c) Only one floor is between H and L
- d) I lives immediately below E
- e) All the statements are true

15) If all the persons are arranged in alphabetical order from the top, then how many persons remain unchanged in their position?

- a) Three
- b) Two
- c) One
- d) None
- e) Four

Directions (16-20): Study the following information carefully and answer the following questions.

Six persons - U, V, W, X, Y and Z live in a sixstorey building such that the lowermost floor is numbered as one and the topmost floor is numbered as six, but not necessarily in the same order

X lives immediately above Z, where none of them lives on the lowermost and topmost floors. Only two persons live between X and Y. The number of persons

living above Y is one less than the number of persons living below V. Both Z and W does not live adjacent to each other.

16) If the position X and Z are interchanged in the same way the position of U and Y are interchanged, then who among the following person lives two floors below X?

- a) U b) V c) Z d) Y e) W

17) Who among the following persons are living between W and Z?

- I. V
- II. U
- III. Y
- IV. X

- a) Only I and IV
- b) Only I and III
- c) Only III and IV
- d) Only II and III
- e) Only I and II

18) On which of the following floor does W live?

- a) Second
- b) Third
- c) Sixth
- d) First
- e) Fifth

19) What is the sum of the floor numbers of X and W?

- a) 4 b) 7 c) 6 d) 8 e) 9

20) Four of the following five are alike in a certain way and hence form a group. Which of the following one does not belong to that group?

- a) VX b) ZU c) YW d) VZ e) UY

Directions (21-25): Study the following information carefully and answer the below questions.

Six persons - A, B, C, D, E, and F were born in different months - January, April, May, June, August,

and September of the same year, but not necessarily in the same order.

E was born in either May or June and was born two persons before D. The number of persons elder than E is the same as the number of persons younger than A. The number of persons born between A and D is the same as the number of persons born between B and F. F was elder than A, who was younger than C.

21) F was born in which of the following month?

- a) August b) June c) May d) April e) January

22) How many persons were elder than E?

- a) One b) Two c) Five d) Four e) Three

23) Who among the following person was born immediately after F?

- a) The one who was born in June
b) The one who was born in May
c) B
d) D
e) C

24) Which of the following statement(s) is/are true with respect to the final arrangement?

- a) All the statements are true
b) More than three persons were born before C
c) No one was born after F
d) E was younger than B
e) B was born in August

25) Four of the following five are alike in a certain way and thus form a group. Which of the following one does not belong to that group?

- a) CA b) FE c) BD d) ED e) AB

Directions (26-30): Study the following information carefully and answer the below questions.

Eight persons - L, M, N, O, P, Q, R, and S are attending the seminar in different months - March, April, May, June, July, August, September, October of the same year, but not necessarily in the same order.

R attends the seminar three persons before P. Only two persons attend between P and N. The number of persons attends before N is the same as the number of persons attends after O. S attends two persons before M. S does not attend in the month which has an odd number of days. Q attends after L.

26) Who among the following person attends the seminar in April?

- a) The one who attends immediately before L
b) The one who attends two persons before P
c) O
d) N
e) Q

27) Who among the following persons attend the seminar in the month which has an even number of days?

- I. R
II. N
III. S
IV. P
a) Only I and IV
b) Only I and III
c) Only III and IV
d) Only II and III
e) Only I and II

28) How many persons attend the seminar between L and M?

- a) None
b) Four
c) Three
d) Two
e) One

29) As many persons attending the seminar before S as after ____?

- a) N b) P c) M d) Q e) R

30) In which of the following month does M attend the seminar?

- a) August
- b) September
- c) July
- d) May
- e) April

Directions (31-35): Study the following information carefully and answer the below questions.

Seven persons - T, U, V, W, X, Y, and Z join the company in different months - April, May, June, July, September, November, and December of the same year but not necessarily in the same order

X joins the company after September. Only two persons join between X and Y. W joins in the month which has an even number of days but before Y. The number of persons joins before W is the same as the number of persons joins after V. U joins immediately before Z. T joins before Y.

31) In which of the following month does V join?

- a) November b) December c) September d) June
- e) July

32) Four of the following five are alike in a certain way and hence form a group. Which of the following one does not belong to that group?

- a) W b) Y c) Z d) X e) V

33) If all the persons are arranged in alphabetical order from April, then how many persons remain unchanged in their position?

- a) One b) Two c) Three d) Four e) None

34) Who among the following person does not join before Z?

- a) W b) T c) Y d) U e) V

35) Who among the following person joins immediately after T?

- a) V
- b) The one who joins immediately before Z
- c) Y

d) X

e) W

Directions (36-40): Study the following information carefully and answer the below questions.

Nine persons - D, E, F, G, H, I, J, K, and L are buying a new bag in different months - January, March, April, June, July, September, October, November, and December of the same year, but not necessarily in the same order

G buys in the month which has an odd number of days but after September. Only three persons buy between G and K. The number of persons buy before K is one more than the number of persons buy after F. Only two persons buy between F and E. Both J and H buy immediately after and immediately before E respectively. The number of persons buy between J and K is the same as the number of persons buy between H and D. I neither buys adjacent to F nor K.

36) If the position of K and F are interchanged in the same way the position of I and L are interchanged, then how many persons are buying between L and F?

- a) Two b) One c) Three d) Four e) None

37) The persons, who buy a bag in between E and L, buys in which of the following months?

- I. March
- II. November
- III. June
- IV. September

- a) Only I and IV
- b) Only I and III
- c) Only III and IV
- d) Only II and III
- e) Only I and II

38) If all the persons are arranged in alphabetical order from December to January, then how many persons remain unchanged in their positions?

- a) None b) Four c) Three d) Two e) One

39) Four of the following five are alike in a certain way and thus form a group. Which of the following one does not belong to that group?

a) DE b) IG c) HJ d) KL e) FI

40) Which of the following combination is true with respect to the final arrangement?

a) J- June

b) K- September

c) G- November

d) D- March

e) H- April
